

ABHINAY YADAV

COMPUTER SCIENCE ENGINEERING STUDENT | VIDEO EDITOR | AI/ML & DIGITAL CONTENT

abhinaydev27@gmail.com | +91 9520760443 | Greater Noida, India | [LinkedIn](#)

Video portfolio: <https://razerenders.live>

PROFILE

B.Tech Computer Science and Engineering student specializing in Artificial Intelligence and Machine Learning, with professional experience across software development and video production. Skilled in Python, Java, JavaScript, machine learning fundamentals, Adobe Premiere Pro, and After Effects. Brings an uncommon combination of technical problem-solving, visual storytelling, and practical client-facing experience.

TECHNICAL SKILLS

Programming: C, C++, Java, Python, JavaScript | **Web:** HTML, CSS, Node.js, Express | **Databases:** MySQL, MongoDB | **AI/ML:** NumPy, Pandas, Matplotlib, Scikit-learn, TensorFlow, PyTorch, data structures and algorithms | **Tools:** GitHub, VS Code, IntelliJ, Adobe Premiere Pro, After Effects, Photoshop, Illustrator, Figma, Canva

PROFESSIONAL VIDEO EXPERIENCE

Associate Video Editor

Nov 2025 - Mar 2026

GetAds | Remote

- Edited advertising and social content from creative briefs, applying pacing, captions, sound design and platform-ready delivery.

Video Editor

Mar 2023 - Nov 2024

Vidventures Media | Remote

- Produced short-form and long-form content for creators and digital audiences, including gaming, anime and entertainment formats.

Video Editor

Feb 2023 - Jun 2023

Pledge A Smile Foundation | Remote

- Created clear, engaging edits for nonprofit communication and social media use.

Junior Video Editor

Apr 2020 - Present

Freelance | Remote

- Work with creators and clients on YouTube videos, Instagram Reels, Shorts, promotional edits, motion graphics and content repurposing.

ENGINEERING EXPERIENCE

Web Developer Intern

Jun 2025 - Jul 2025

TAP INDIA | Remote

- Developed and deployed a full-featured website; built responsive front-end interfaces with HTML, CSS and JavaScript; implemented backend services with Node.js, Express and MongoDB/MySQL, including payment-gateway integration.

Machine Learning Intern

May 2024 - Jul 2024

Infosys Springboard | Remote

- Worked with NumPy, Pandas, Matplotlib, Scikit-learn and PyTorch; practiced data preprocessing, supervised and unsupervised learning, model evaluation and basic neural networks.

SELECTED PROJECT

Weather-Based Power Demand Prediction System (Mar 2024) - Developed a Python machine-learning system using real-time weather data to predict power demand and support efficient energy generation and distribution. **Tools:** Python, Pandas, NumPy, Scikit-learn, Matplotlib.

EDUCATION & CERTIFICATIONS

B.Tech, Computer Science & Engineering - IILM University, Greater Noida (2023-2027)

Certifications: Python Fundamentals (Infosys Springboard, Jan 2025); AI with TensorFlow (Infosys Springboard, May 2025); Scikit-learn with Python (Infosys Springboard, May 2024); Machine Learning (Columbia+, Jul 2025).

ADDITIONAL

English: Professional written and spoken communication | **Coordinator:** HP Omen Gaming Contest at IILM University (Sep 2024) |

Competitive programming: LeetCode, HackerRank, CodeChef
